

AGENDA
COVERED ELECTRONIC WASTE (CEW) STAKEHOLDER MEETING
CRT GLASS, THE CEW RECYCLING PROGRAM, AND FUTURE REGULATION

Thursday, November 8, 2012

1:30 p.m. – 4:00 p.m.

Byron Sher Auditorium Cal/EPA Headquarters Building
1001 I Street, Sacramento

The primary purpose of this meeting is to allow stakeholders and regulators to discuss the evolution of the covered electronic waste (CEW) recycling payment system in light of changes in CRT glass management regulations, recovered material mix, markets for residuals, and enforcement authority. At this time it is intended to be an informal exchange of ideas rather than a formal presentation of specific regulatory proposals.

Most pressing: DTSC has issued emergency CRT management rule changes that create possible opportunities as well as potential confusion in the CEW recycling program. Regulation governing the CEW recycling payment system may need to be altered to accommodate a wider range of CRT glass management options, dispositions, and documentation. Recycling payment claim criteria may also need to evolve to ensure program efficiencies.

Leave the necktie behind, roll up your sleeves, and bring your best thinking on these pressing matters.
